

Fabio Borba

Energy Infrastructure Team at the Abraaj Group and Themis Energy

Managing Director

Fabio has 18 years' experience in developing infrastructure projects globally, including leading project finance development and investment in Africa, Asia, North and Latin America. Fabio has strong experience in all the phases of the project development cycle from origination to equity and debt financial close, including structuring successful project financing deals with commercial banks, export credit agencies, development finance institutions & multilateral financing agencies.

Prior to joining The Abraaj Group, Fabio was vice president at eleQtra Limited, an infrastructure project developer backed by infraCo and active across sub-Saharan Africa. He was previously a developer at Tenaris, a leading supplier of tubes and related services for the energy and industrial applications industries and at ABB Energy Ventures, the investment arm of Asea Brown Boveri. Fabio holds a BSc. in Civil Engineering from Escolas de Engenharia Maua.
