

Environment and Natural Resources

Our lawyers combine substantive knowledge of environmental law with their litigation, compliance counselling, permitting, regulatory and legislative advocacy, and commercial transaction experience.

You may be considering potential litigation. Or need permitting advice for a large-scale project. Or you could be in the midst of a complex enforcement action, facing record-setting fines and long-term damage to your brand. All at a time of heightened media attention. The environmental lawyers at Hogan Lovells can ably assist with both your most complex legal challenges and the day-to-day issues that must be addressed to maintain compliance and keep abreast of recent policy and regulatory changes.

We take a collaborative approach to working with you and with regulators to solve your legal challenges. We offer litigation, permitting, compliance counseling, regulatory and legislative advocacy, and commercial transactions advice. We have earned a reputation as effective negotiators. Integrity is important to us. Clients like that we are transparent in our problem solving and provide practical advice.

And we know your industry. We have experience with manufacturing, energy, transportation, chemicals, agriculture, and many other sectors. State and local governments and trade associations also turn to us to address their environmental issues.
